

Interior Design/Decorating

All sessions will be comprised of handouts, checklists, examples where permitting, and actual discussions that a design professional uses to acquire information, prepare a design concept, and the bidding process. The program is set up as an interactive lecture series. Participants will be requested to gather and provide information for each session.

Instructor: S. Isaacson Mouhoub

Course# 4351-F08NA **Location:** Highland Jr
Tu Sep 30, 7:00p-9:00p **Ses:** 3 **Fee:** \$53
 • No class October 14.

Power Tools (Basic)

Get comfortable with power tools in this hands-on class. Learn which tool is necessary for a particular task, how to operate it, and the safety precautions for each. Emphasis will be on circular saw, jig saw, electric drill and electric sander. You'll have an opportunity to operate each tool under the supervision of the instructor.

Instructor: D. Theisen

Course# 4352-F08NA **Location:** Johnson Sr
Tu Oct 14, 6:30p-8:30p **Ses:** 1 **Fee:** \$19

Refinishing: Sanding Your Own Floors

With the right training, tools, and preparation, hardwood floor sanding is something you can do yourself. Take this class and you can ask as many questions as you like about assessing your floor's condition and evaluating different rental sanders, sanding techniques and finish options. Get tips on preparation, eliminating flaws from previous sanders, refinishing stairs, corners and radiators, and how to recognize when you should hire a professional.

Instructor: K. Macey

Course# 5589-F08NA **Location:** Ramsey Jr
M Oct 27, 6:00p-9:00p **Ses:** 1 **Fee:** \$25

Remodeling: Kitchen for Older Homes

Love your home? Hate your kitchen? Whether you are considering a minor face-lift or full remodel, learn to make the most efficient use of space in your kitchen. The first session will focus on organization of space, product knowledge and tricks for updating your existing space. Second session, plan on bringing your own floor plan or photo and receive design suggestions and directions to make your kitchen work for you.

Instructor: L. Stryker

Course# 5740-F08NA **Location:** Ramsey Jr
Tu Nov 11, 7:00p-9:00p **Ses:** 2 **Fee:** \$53

Soldering Copper Tubing

We will identify copper tubing, steel pipe, valves and fittings, their nomenclature and how to identify and join them together. You will also learn the techniques of soldering/sweating copper tubing by doing a hands-on application in class. Equipment, techniques and questions will be reviewed.

Instructor: P. Schwartz

Course# 9953-F08NA **Location:** Central Sr
M Oct 27, 7:00p-9:00p **Ses:** 1 **Fee:** \$23

Trim and Moulding

Learn the basics on how to cut, glue, sand, install and finish baseboard trim, and window and door casing. We will also discuss picture mouldings.

REAL ESTATE

Real Estate: Buying Your First House

Learn all the facts behind deeds, title insurance, closing costs, financing a mortgage, little known tax write-offs and the respective roles of brokers, salesmen and attorneys.

Instructor: L. Nelson

Course# 5572-F08NA **Location:** Como Sr
Tu Oct 14, 7:00p-9:00p **Ses:** 1 **Fee:** \$18
 • Traditional mortgage representative will be present.

Real Estate: First-Time Homebuyer Assistance Programs

This class will cover the main three subsidized interest rate programs available in the Twin Cities area, their rules, benefits and drawbacks. Also covered will be the larger down payment assistance programs that are available. With these programs the first-time homebuyer can get a low fixed interest rate and down payment assistance to get that first home. Find out how these subsidized programs can benefit you!

Instructor: E. Otterness

Course# 5573-F08NA **Location:** Harding Sr
W Oct 15, 7:00p-9:00p **Ses:** 1 **Fee:** \$18

Real Estate: Foreclosure Prevention

Get the latest information on the foreclosure and sub-prime real estate crisis. What to do to protect your family? What are my rights in a foreclosure? How do I work with my existing mortgage company to protect my home? What is a "short sale" and when should I sell? We will cover: HUD's new "FHASecure Initiative" foreclosure refinance program; "Minnesota Housing Finance Agency's Foreclosure Prevention Program"; Foreclosure prevention "work-outs" with your existing mortgage company; the foreclosure process from "delinquency" to "sheriff sale" to "statutory redemption period"; the "short sale" process; liability after foreclosure; the pros and cons of bankruptcy; tax consequences of these transactions.

Instructor: E. Otterness

Course# 5574-F08NA **Location:** Harding Sr
W Oct 22, 7:00p-9:00p **Ses:** 1 **Fee:** \$18

Real Estate: Buying HUD/VA Foreclosed Property

Discover how to buy HUD/VA foreclosed property and real estate before it is sold at a sheriff's sale. Make your search easier by learning to find these properties in publications and mailing lists.

Water Heater Installation and Maintenance

This is an introductory class designed for homeowners who want to learn how to replace that old water heater and/or do periodic preventive maintenance to keep it operating efficiently. Emphasis will be focused on both gas and electric models.

Instructor: P. Schwartz

Course# 4203-F08NA Location: Central Sr
M Oct 20, 7:00p-9:00p Ses: 1 Fee: \$23

Window Restoration: Energy Enhancements for Old Windows

Do you want to keep the original windows in your home, but you're tired of freezing in the winter? Learn how to repair and weather-strip the original windows in your home. The energy savings can be significant! In this class we will take apart an old window, replace broken sashes and ropes, free up painted-shut windows and install new weather-stripping to keep the cold out. You can get answers to your questions about common problems such as rattles, condensation and energy savings. We'll also take a good look at storm window options.

Instructor: P. Schmidt

Course# 5590-F08NA Location: Ramsey Jr
M Oct 6, 6:00p-9:00p Ses: 1 Fee: \$28

Course# 5590-F08NB Location: Ramsey Jr
Tu Oct 7, 6:00p-9:00p Ses: 1 Fee: \$28

Window Restoration: Make Those Old Windows Look Good

This class covers non-energy-related repair and restoration. You will learn how to replace glass and put in new glazing putty so it looks professionally done. You will also learn the difference between the old original windows and new replacement windows, how to tell good window locks from bad ones, how to repair rotten wood and how to sand, stain and varnish or paint your windows. Bring in your old window parts for evaluation! It is recommended that you take the class, Window Restoration: Energy Enhancements for Old Windows, before this class.

Instructor: P. Schmidt

Course# 5552-F08NA Location: Ramsey Jr
M Oct 20, 6:00p-9:00p Ses: 1 Fee: \$28

WOODSHOP

Instructor: P. Schwartz

Woodshop for Women (Basic)

Students taking this class will work on a pre-selected project (stepstool) using either hand tools and/or small power tools. The project will include most phases of woodworking skills: cutting, gluing, sanding and assembly. Materials for this project will be furnished; however, students are encouraged to bring their own power or hand tools to use. Upon completion of the project and time permitting, students may select a simple project of their own, purchase the required materials to make it, and work on it using the skills learned.

Course# 1219-F08NB Location: Central Sr
Sa Sep 27, 10:00a-12:00p Ses: 5 Fee: \$56

• No class October 18.

Course# 1219-F08NA Location: Central Sr
W Oct 1, 7:00p-9:00p Ses: 5 Fee: \$56
